

Welcome to Brickyard Cove Marina!

The following is a cursory survey of the boat that you are bringing into our Marina. Upon arrival, one of our staff will show you your slip and respond to any questions you may have about electricity, water usage, or other questions. We are excited to welcome you to our harbor. Please let us know if you have any questions regarding our facility. You are welcome to attend our weekly "bring your own" Wednesday evening barbeques.

Tenant Name _____ Berth _____

Boat Name _____ Boat Type _____

CF# or Documentation name and port _____

Dock Steps _____

Questions, Comments, Notes:

BYC Employee Signature _____ Date _____

Tenant Signature _____ Date _____

Please note that boats must fit completely within their slips with no extensions overhanging the docks or fairways. Fenders in compression under static conditions indicate that the boat is too wide for the berth. If your boat is too large for the slip that we have assigned you, and there are no available slips in the correct size, you will be put on our waitlist for the correct size based on your original waitlist entry date.

Entry Gate Code _____ If we forget to give you the entry code please call us.
