Free WiFi Terms & Conditions

As a service to our Marina tenants, Brickyard Cove Marina provides a WiFi Internet access system which is accessible from the docks. The Marina is providing this free of charge as an added service so that our tenants may check email and such from their boats.

By connecting to this service, you agree to the following terms:

- This service is for Marina tenants only, and only one wireless device may be used per slip. The sharing of this connection with others or on multiple devices is prohibited.
- You must provide Brickyard Cove Marina with the accurate Media Access Control (MAC) address for the one device you wish to use, and wait for the next maintenance cycle for the MAC number to be entered into the system before the network will become available.
- Because of the nature of WiFi signals, we cannot guarantee that all slips will have a strong signal at all times. Some tenants may need to invest in high power WiFi adapters and/or high gain antennas to achieve reliable service. New adapters will have their own MAC addresses, and will need to be registered on the network before use.
- This service is provided **as is**, and **at your own risk**. Brickyard Cove Marina cannot provide support for your use of the service, and cannot be held responsible for any problems which may arise from its availability or use.
- This network is provided for low bandwidth personal use only, and is not to be used for commercial purposes, online gaming, p2p downloads, sending or receiving large files, streaming audio or video, or illegal or unethical activities of any kind. Activities can be tracked by BCM, and users who abuse the system will be banned without notice.
